NO. 9.

Reminiscence of a County Citizen.

(Continued From last Week.)
We heard that afternoon that they had a running fight near Camp-ton.

Next day was Saturday; my cousin R. and I went to visit our uncle, J. L. on Cane creek. As usual, we took our squirrel rifles along. We had to pass along by the old Cane Creek Church. It was the custom in those days to hold "church meetin's" every fourth Saturday to inquire into the conduct of the "flock" and etc. I suggested that we hide our rifles and stop at church. My cousin agreed to the proposition. We left them behind a log, and went into the meeting house.

One old Brother who was in the habit of taking too much of "you-don't-care-what-you-say" was there and had been churching at the meeting before. At a stack of cedar posts in a few feet of the house, this old brother was sitting on the outside of the house, while the church members were transacting business on the inside. After they had finished all business before them, they began to sing "O When Shall I See Jesus." This old Brother(?) was about "three sheets;" he chuckled in a low tone and said: "B-B—I'll tell you when you'll see Him; B-B—you'll never see Him."

I have heard of people speaking out in meeting, but we laughed, and it was "outen meetin'."

The next school I attended was at the mouth of Cow Creek at the

old Cow Creek Church, the place where the famous preacher Billy Rogers used to preach, the school was taught by Mrs. Clara Stewart, the mother of Mrs. D. R. Daniel and the other McShill children of Hardwick's Creek. There I formed the acquaintance of more boys, viz: William Townsend, Jesse Forkner Luther Robbins and many more; Among the girl scholars were Mrs. R. W. Garrett, of Clay City, Mrs. Loma Goodwin, of Ohio, Mrs. Cadie Forman, of Missouri.

We boys had in our possession a gourd fiddle, made by cutting the side out of a good size gourd and tacking a raw hide over the opening; the strings were made from the hair of the equine; the bow was a willow switch with a wisp of "hoss har" tied to each end and bent until it straightened the "har" and held it in position. It felt to my lot to operate the fiddle. I will say right here that it was never run up to the "concert pitch." We would march under strains of music furnished by this violin and a tenor drum owned by my school-mate B. who was not at all interested in his lesson at any time. He belonged to the same grammar class that I belonged to—seven of us in all. One day we were reciting; he was next to me in the class. The teacher was just one scholar above him. He leaned over and asked me in a low tone, "what is my sentence?" I said, "two negatives in one case is equivalent to an affirmative." When the teacher asked him to recite he said, "two niggers

a runnin' a race is equivalent to a hemp factory." This brought the house down, when the teacher yelled out: "Silence! Silence!" The next in the class was J. When she came to him he said: "A cow is a noun, in the present tense; she switches her tail agin' the fence." It is useless to say that B. and J. had to stay in at noon for their unsurpassed (?) knowledge of grammar.

At the close of this school our teacher was married to Mr. Ambrose McMahill, of Cat Creek. C. N. Hoskin, brother of Mrs. McMahill, was the sheriff. One day we were riding along the public road together; he asked me how I would like to sheriff it. I told him I thought I would like it all right. He said, "I want to make a special deputy of you to serve some notices that I can not on account of 'the parties runnin'." I accepted the proposition. The first one I went after, was on Birch Branch. He had been sued by his better half for absolute divorce. He was trying to keep her from it, which was the cause of his running from Charley. I located him in a house where a "ho down" dance was in progress. I stood in the door until that set was out when I spied him sitting by his uncle who was furnishing the music. I went over to where he sat, exchanged greetings and picked up a pine torch, drew the document from my pocket, read the contents to him. He seemed horror stricken. It is useless to say that at the next sitting of Circuit Court she obtained the absolute divorce. I did not sheriff it much more.

The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour, if it's in good condition. If the movement is sluggish, there's something wrong. It will move 3,558 miles in a year, and requires less than one-tenth of a drop of oil to make it run. But it needs that little badly. The least degree of friction on the bearings alters the motion. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay and satisfy you.

Plenty of mud on both our side-walks and streets.

The fruit is said to not have been injured by the recent cold spell.

The Handle Factory closed the past week. Preparing for another long run.

On account of the cold weather the box factory had to shut down last week.

Dr. Littlepage reports the birth of a son to Mr. and Mrs. Charley Anderson Tuesday morning.

Mr. B. H. Potts and Miss Laura Smethers were married in Winchester Saturday, February 21.

We booked \$17 worth of Job Work one day this week, which shows that our business is still flourishing.

Lloyd Todd, of Spout Spring, and one of the editor's old school mates, was transacting business in town Monday.

Don't fail to report any item of news you know to the TIMES. We can't tell what you know unless we know it.

Our merchants have received their garden seed, but it didn't look much like we would need them soon last week.

The editor attended the debate Monday night and learned quite a little about the liquor traffic of our charming little city.

Mesdames Jennie Russell and J. W. Williams are visiting their father, R. T. Kennon, of Hardwick's Creek, who is in very feeble health this winter.

Major J. B. Blackburn, of Stanton, was in Clay City Monday on business. While in town Mr. Blackburn favored the TIMES office with a brief call.

D. A. Thomson, former principal of the school at this place and at Stanton, has gone into the real estate and insurance business and has opened an office in Winchester.

It is well for one wing of Clay City Debating Society that no members of the City Council were present at their meeting Monday night, as it saves them of a slander suit.

Geo. W. Lyle, Jr., and Sam Billings, of Furnace, were here yesterday and shipped a lot of produce from this point, and received a lot of goods for the latter's store at Furnace.

Miss Maggie Groves has accepted the position as saleslady in the Racket Store. Miss Maggie has had considerable experience in this line of work and is quite popular with our people.

The oil machinery which has been operating on Daniel's place

near the Granny Howard Hill has pulled upstake and shipped their machinery up the road. They only went to a depth of about 300 feet.

We have received a letter from J. N. Bush, the Indian Fields farmer who has an ad in the TIMES offering baled hay for sale, stating that he has sold a large portion of the hay, showing the effect of the ad.

Cut this out and take it to any dealer in patent medicine and get a free sample Chamberlain's Stomach and Liver Tablets, the best physic. They cleanse and invigorate stomach, improve the appetite and regulate the bowels. Regular size, 25c. per box.

Hillenmeyer & Son, the Lexington nurserymen have their Spring announcement in this issue. Write them for catalogue. They sell everything for orchard, lawn or garden.

A Liberal Offer.

The undersigned will give a free sample of Chamberlain's Stomach and Liver Tablets to any one wanting a reliable remedy for disorders of the stomach, biliousness or constipation. This is a new remedy and a good one. Any dealer in patent medicine.

DIED.

Sissie, the 14 year-old daughter of Scott Willoughby died Sunday morning near the mouth of Black creek of typhoid fever. This is the third death in Mr. Willoughby's family of this dread disease in the past few weeks.

102 Widows in Harrodsburg.

There is no town in Kentucky that has as large per cent. of their population invested in widows as Harrodsburg. In this town there are 102 marriageable widows; or in other words fully one-thirtieth of the population is composed of them. Most all these are in good circumstances, and it might be well for Clay City's noble hearted widowers and bachelors to make a quick investigating tour of this blue-grass city.

Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results after a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon which implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by all dealers in patent medicine.

Rev. and Mrs. J. H. Pence, of Campton, stopped over at Clay City Monday to visit the families of R. B. Moore and J. B. Eaton. They had been to Lincoln county to visit relatives and were on their way home. Bro. Pence said he was pleased with his new location and that he was getting along well.

Meeting Days Changed.

Rev. R. A. Irvin filled his stand Sunday morning and at night. He has changed his appointments at this place and at Stanton. Instead of preaching here on the fourth as formerly and at Stanton on the third, he has changed days and will hereafter preach here on the third and at Stanton on the fourth.

A Mother's Recommendation.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy. —Mrs. J. A. Moore, North Star, Mich. For sale by all dealers in patent medicine.

Miss Waldron Dead.

Miss Annie Waldron, daughter of Mr. Henry Waldron, died in the western portion of town Sunday after a lingering illness with typhoid fever, aged seventeen years. The funeral services were conducted by Rev. R. A. Irvin at the Christian church Tuesday morning. The remains were interred at the Eaton grave yard by the side of her mother who died with the same disease only a few weeks ago. Mr. Waldron has the sympathy of a large number of friends in his great bereavements.

Buy It Now.

Do not wait until you or some of your family are sick nigh unto death, and then send for Chamberlain's Colic Cholera and Diarrhoea Remedy, but buy it now and be prepared for an emergency. It is the one remedy that can always be depended upon in the most severe and dangerous cases. For sale by all dealers in patent medicine.

Attorney Chas. O. Prowse, of Hopkinsville, will furnish for the Kentucky Building at the St. Louis Fair a rough frame of Jefferson Davis' birth-place made from the timbers of the old home site in Christian county. He also offers the Association a pen and ink drawing, 12 by 18 inches in size, of the birth-place.

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. It is an antiseptic and unequalled as a quick healing liniment for cuts, bruises and burns. For sale by all dealers in patent medicine.

An exchange respectfully invites the attention of its delinquent subscribers to the following that have been compiled from the decision of the United States courts. The seven most important are:

1. Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscription.
2. If subscribers order the discontinuance of their periodicals the publisher may continue to send them until all arrearages are paid.
3. If subscribers neglect or refuse to take their periodicals from the postoffice to which they are directed they are responsible until they have settled their bills and ordered them discontinued.
4. If subscribers move to other places without informing the publishers and the papers are sent to the former address they are held responsible.
5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncalled for is prima facie evidence of intentional fraud.
6. If subscribers pay in advance they are bound to give notice at the expiration of the time if they do not wish to continue taking it, otherwise the publisher is authorized to send it and the subscribers are responsible until an express notice is sent to the publisher.
7. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who takes a paper and refuses to pay for it.

Under the law, the man who allows his subscription to run along for some time unpaid and then orders the postmaster to mark it "Refused" and have a card sent notifying the publisher, leaves himself liable to arrest and fine, the same as for theft.

If you order your paper discontinued and it continues to come, you may know that you are in arrearages and should pay up, otherwise you are held responsible for it as long as the paper is being sent to you.

TAROLEUM

A scientific chemical preparation

For Curing Diseases of Horses Feet

Stimulates a natural, healthy growth, removing inflammation and soreness.

TAROLEUM will mix with water in all proportions, consequently does not exclude the natural moisture from the foot. This will be appreciated by thoughtful horsemen.

AS A DRESSING.—Wash the foot all over twice a day, and polish with a brush if you want the shine.

HOOF-PACKING.—Wet up a sufficient quantity of Taroleum with one part of TAROLEUM to mix with one part of water and bind on the feet. This packing will soften hard, contracted feet quickly, removing the inflammation and soreness.

Gloucester, Mass., June 21, 1901.
W. F. Young, Esq.,
Dear Sir:—I have used your Taroleum and can recommend it to all horsemen as a first-class hoof-dressing. I have used it with success as a dressing for horses' feet, and can assure you the results were all that you could expect.
Yours truly,
James H. Tamm.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable. HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely. I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,

F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and advice free.
